In AD 43, the Roman emperor Claudius launched a major invasion of Britain. This campaign marked the beginning of Roman rule in Britain, which lasted for nearly four centuries. *Britannia AD 43: The Claudian Invasion Campaign* is a comprehensive account of this pivotal event, drawing on a wealth of historical sources, including archaeological evidence, to provide a detailed and engaging narrative of the campaign.

The book begins by setting the scene for the invasion, describing the political and military situation in both Rome and Britain in the early 1st century AD. It then goes on to recount the events of the campaign itself, from the initial landings on the coast of Kent to the final defeat of the British resistance at the Battle of Mons Graupius in AD 84. Along the way, the book provides insights into the strategies and tactics of both the Roman and British armies, as well as the impact of the invasion on the lives of the people of Britain.

Britannia AD 43: The Claudian Invasion Campaign is a must-read for anyone interested in Roman history, military history, or the history of Britain. It is a well-written and thoroughly researched account of one of the most important events in British history.

## **Reviews**
