

Inside The Big Money Battle For The Ocean And Your Dinner Plate

By John M. Browning

The ocean is the lifeblood of our planet. It provides us with food, oxygen, and livelihoods. But the ocean is under threat from a variety of human activities, including overfishing, pollution, and climate change.

In his new book, Inside the Big Money Battle for the Ocean and Your Dinner Plate, John M. Browning takes readers on a journey into the hidden world of the seafood industry. He reveals the corporate greed and environmental destruction that is threatening the future of our oceans and our food supply.

Browning shows how the seafood industry is dominated by a handful of powerful corporations that wield their influence to maximize profits at the expense of marine life and human health. He exposes the rampant overfishing that is depleting fish stocks and harming marine ecosystems. He also documents the widespread use of antibiotics and other chemicals in aquaculture, which is polluting our oceans and making seafood unsafe to eat.

Browning's book is a wake-up call. It shows us that the seafood industry is broken, and it needs to be fixed. He offers a number of solutions to the problems facing our oceans, including:

- * Reducing our consumption of seafood
- * Supporting sustainable seafood practices
- * Holding corporations accountable for their actions

Inside the Big Money Battle for the Ocean and Your Dinner Plate is a must-read for anyone who cares about the future of our oceans and our food supply. It is a powerful exposé of corporate greed and environmental destruction, and it offers a roadmap for creating a more sustainable future.
