Master the Ancient Game of Go

Go, also known as Weiqi or Baduk, is an ancient Chinese strategy game that has been captivating minds for over 2,500 years. With its simple rules and profound depth, Go has become one of the most popular board games in the world, enjoyed by people of all ages and skill levels.

In Go, players take turns placing black and white stones on a 19x19 grid, with the goal of surrounding more territory than their opponent. The game is a delicate balance of strategy and tactics, requiring players to think several moves ahead and anticipate their opponent's responses.

Life and Death Problems

Life and death problems are an essential part of Go study. These problems challenge players to determine whether a group of stones is alive or dead. Solving life and death problems not only improves your ability to recognize life and death situations on the board, but also develops your overall strategic thinking and tactical skills.

Why "Get Dumber While Thinking"?

The title of this book, "Life, Death & Go Problems For Kyu: Get Dumber While Thinking," might seem counterintuitive. After all, isn't the goal of studying Go to become smarter?

The truth is, solving life and death problems can be a humbling experience. As you work through the problems in this book, you will encounter many situations where your initial instincts are wrong. You will have to learn to let go of preconceptions and think outside the box.

This process of challenging your assumptions and re-evaluating your understanding of the game can be frustrating at times. However, it is also incredibly valuable. By embracing the challenges presented by life and death problems, you will emerge as a stronger and more insightful Go player.

100 Essential Problems

This book features 100 essential life and death problems, carefully selected to cover a wide range of difficulty levels. Each problem is presented with a clear diagram and a brief description of the situation. You will have plenty of space to write down your solution and analyze the problem.

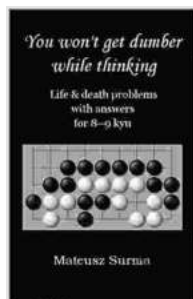

Benefits of Solving Life and Death Problems

- Improve your ability to recognize life and death situations
- Develop your strategic thinking and tactical skills
- Learn to let go of preconceptions and think outside the box
- Become a stronger and more insightful Go player
