

# The Coming Nuclear Showdown with Iran: A Detailed Look at the Crisis

*The Coming Nuclear Showdown with Iran* is a gripping account of one of the most pressing foreign policy challenges facing the United States and its allies today. In this explosive new book, Pulitzer Prize-winning journalist David Sanger reveals the behind-the-scenes story of the negotiations between the Obama administration and Iran over its nuclear program, and lays out the options that the Trump administration is now considering.

Sanger argues that the Iran nuclear deal was a flawed but necessary agreement that has made the world safer. He shows how the deal stopped Iran from developing a nuclear weapon, and how it gave the United States and its allies valuable time to build a stronger diplomatic and economic relationship with Iran.
